Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the Incident form. • Enters Incident details. • Selects required fields.	• Updates the Incident information. • Checks mandatory fields. • Corrects incomplete details.	• Submits the Incident form. • Reviews the entered information. • Completes the Incident submission.
Touchpoint <i>What part of the service do they interact with?</i>	• ServiceNow Incident form • Incident fields • User interface	• Client Script • UI Policy • Incident fields	• Submit button • Incident record • Validation messages
Customer Thought <i>What is the customer thinking?</i>	• “I need to enter the Incident details correctly.” • “Which fields are required?” • “I should not miss any information.”	• “The fields should change based on the conditions.” • “I need to correct the required fields.” • “The form should guide me.”	• “Is all the information correct?” • “Can I submit the Incident successfully?” • “The Incident should be recorded correctly.”

Customer Feeling <i>What is the customer feeling?</i>	• Slightly confused while entering Incident details. • Concerned about missing required fields. • Wants a simple formfilling process.	• More confident when fields are automatically controlled. • Relieved when required fields are clearly indicated. • Less worried about incorrect information.	• Confident after reviewing the Incident details. • Satisfied when the form is submitted successfully. • Assured that the Incident record is complete and accurate.
---	---	---	---

Process Ownership <i>Who is in the lead on this?</i>	• IT Support Agent • Service Desk Team	• IT Support Agent • ServiceNow Administrator	• IT Support Agent • ServiceNow Administrator
Opportunities <i>How can we improve this stage?</i>	• Make important fields clearly visible. • Provide a simple Incident form. • Reduce unnecessary fields.		• • •
