

Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	SWTID-2026-5283
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Incident Client Script	JavaScript	Incident Form	High
2	Incident UI Policy	ServiceNow UI Policy	Incident Form	High
3	UI Policy Actions	ServiceNow Configuration	Incident Form Fields	High
4				

	Field Validation Logic	JavaScript	Incident Form	Medium
5	Incident Form Configuration	ServiceNow Platform	Incident Management Module	High

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Code is formatted consistently
2	Proper File Structure	Files and folders are logically organized	Yes	Components are organized according to their functionality
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Clear and understandable names are used
4	Function / Method Names	Functions are descriptively named	Yes	Function names describe the performed action
5	Code Comments	Inline and block comments explain logic	YesYes	Important logic is documented
6	Modular Design	Code is split into reusable functions/modules	Yes	Client Script and UI Policy responsibilities are separated
7	No Redundant Code	Duplicate or unused code is removed	Yes	Only required logic is implemented
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Form validation helps prevent incorrect data entry

Reusable Components / Modules:

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	The Client Script and UI Policy configurations are clearly organized.
Readability	5	Clear naming, simple logic, and proper formatting improve readability.
Reusability	5	The implemented configurations can be extended or reused for other Incident fields.
Documentation / Comments	4	Comments and configuration descriptions are provided where required.
Overall Score	5	The implementation is structured, readable, maintainable, and reusable.
