

No. of Functional Features Included in the Solution

Date	30 September 2026
Team ID	SWTID-2026-5283
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

Functional Features Overview:

Metric	Count / Value
--------	---------------

Total Features Planned	8
------------------------	---

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Mandatory Field UI Policy	Makes Short Description and Description mandatory on the Incident form so that no incident is logged without key details.	UI Policy (Incident form)	Done	0.5
2	Conditional Field Visibility	Shows Resolution Code and Resolution Notes only when the Incident State is Resolved or Closed, keeping the form clean.	UI Policy Actions	Done	0.5
3	Read-only Field Control	Makes fields such as Caller and Category read-only once an incident is Resolved/Closed to prevent accidental edits.	UI Policy Actions	Done	0.5
4	onLoad Client Script	Runs when the Incident form loads to display a guidance message and set default values for a better user experience.	Client Script (onLoad)	Done	0.5
5	onChange Client Script	Responds instantly to field changes (e.g. Urgency / Impact / Category) and updates or alerts the user without a page reload.	Client Script (onChange)	Done	0.5
6	onSubmit Validation	Validates form data before saving (e.g. minimum length of Short Description) and stops submission if the check fails.	Client Script (onSubmit)	Done	0.5
7	Reverse if False Behaviour	Automatically reverts field mandatory / visible / read-only settings when the UI Policy condition is no longer true.	UI Policy Configuration	Done	0.5
8	Form Messages & Field Alerts	Uses info / error messages and field-level messages to guide users and clearly show validation errors on the form.	Client-side Messaging (g_form)	Done	0.5

Feature Summary:

Total Features Implemented	8
Core / Must-Have Features	5
Additional / Nice-to-Have Features	3
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	5	Mandatory field policy, conditional visibility, read-only control, form messages
2	Backend / Logic	3	onLoad, onChange and onSubmit client scripts
3	Database / Storage	0	Incident table records only (no custom tables created)

4	API / Integration	0	Not applicable (client-side g_form API used within the scripts)
5	Security / Authentication	0	Not applicable (standard platform ACLs and roles apply)
